

Technical Data Sheet (TDS) for DIY Tint by Designcrete DIY llc

Product Description:

DIY Tint is a collection of synthetic iron oxide pigments that are designed to deliver a durable, lightfast, and weather-resistant color for concrete overlays, coatings, and systems. The finely milled pigments are chemically inert and alkali-resistant, and they meet or exceed ASTM C979 criteria.

Applications:

DIY Tint can be used for a variety of applications, including resurfacers, micro toppings, stamped overlays, spray overlays, trowel overlays, vertical mixes, and countertops.

Directions for Use:

To use DIY Tint, add the entire contents of the color pack to the mixing bucket with water and gently stir before adding the dry overlay. Make sure to empty the entire contents of the bag into the mix water. It's also acceptable to dry blend the pigment pack into the dry overlay before adding water.

Variations:

The final color may not be an exact match to the color chart. Color variations can occur if water ratios are changed from one batch to another, and the type of sealer used can also significantly affect the color appearance. It's essential to perform a representative test sample using all materials and techniques planned for the project.

Warranty:

This warranty is made in lieu of all other warranties, either expressed or implied. Before application, the user shall determine the suitability of the product for their intended use, and the user assumes all risks and liabilities whatsoever in connection therewith. Designcrete DIY llc does not have any knowledge or control concerning the purchaser's use of this product, and no warranty is made as to the results of any use. If any goods supplied prove defective in material, the sole obligation of Designcrete DIY llc shall be to replace said product. Any claim of defective product must be received in writing within one (1) year from the date of shipment. Designcrete DIY llc shall not assume any liability for injury, loss, or damage resulting from the use of this product.

Safety:

Do not take internally. Keep out of reach of children.
